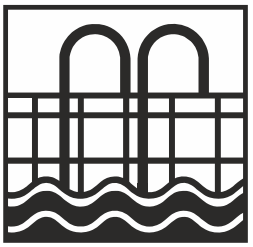
VITALISE

DAILY POOLSIDE CLEANER/MAINTAINER

CHRISTEYNS
PROFESSIONAL HYGIENE

- Controls water scale and body fats
- Ultra low-foaming - ideal for jacuzzi cleaning
- Safe to user and pool

Code: 520



USES

A daily poolside cleaner and maintainer to control water-scale and body fats.

A blend of ultra-low foaming agents and surface-safe acids, Vitalise is formulated to ensure clean, hygienic, slip-resistant conditions without effect on the pool.

Ensures that all surfaces around the poolside, wet areas and jacuzzis remain free from soilage, keeping all surfaces safe and in premium condition.

DIRECTIONS

Pre-dilute VITALISE with water according to the job. Apply to the surface using, mop, spray or through suitable cleaning equipment. Agitate and rinse away. VITALISE can be rinsed away with pool water. VITALISE can be diluted with up to 40 parts water for spray cleaning. Always rinse thoroughly after use.

N.B. Always test surface suitability prior to cleaning with a solution of VITALISE.

DILUTIONS

VITALISE : WATER	
General Cleaning 1:20	Severe soilage Undiluted

pH in use
