

# Swarfega® Restore

## Skin conditioning cream

### PRODUCT DESCRIPTION

Lightly textured skin conditioning cream to help care for normal to dry skin. Perfume-free and dye-free.

### WHERE TO USE

For use by those with moderate skin dryness from from daily working in automotive and professional trades.

### INSTRUCTIONS FOR USE

- Apply 1ml to clean and dry skin prior to extended breaks and at the end of the working day.
- Rub on all areas of the hands, including between the fingers and around the fingernails.
- Can also be used on the face.

After-work skin care creams help to maintain the skin in good condition keeping it strong and healthy, avoiding dryness. Using care creams is an important element in skin care best practice.

FEATURES	BENEFITS
<b>Non-greasy formula</b>	Designed for normal to dry skin to absorb and leave no greasy afterfeel, encouraging regular use and maintaining healthy skin condition.
<b>Contains Shea Butter</b>	An emollient to help condition the skin.
<b>Contains Allantoin</b>	Supports the moisturisation effect and helps condition the skin.
<b>Contains Glycerin</b>	A skin moisturiser to help prevent drying and leave the skin feeling smooth after use.
<b>Perfume-free and Dye-free</b>	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
<b>ECARF Certified<sup>1</sup></b>	This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for being well tolerated by sensitive skin. <a href="http://ecarf-siegel.org/en/about-seal">ecarf-siegel.org/en/about-seal</a> .
<b>Skin Hypoallergenic</b>	Dermatologist tested to verify and confirm this product has very low allergenic potential and is designed for sensitive skin.
<b>Proven glove compatibility</b>	Suitable for use with latex, vinyl and nitrile gloves.
<b>Compatible with alcohol-based hand sanitisers</b>	Can be used in hygiene sensitive areas where hand sanitising procedures are necessary
<b>Silicone-free</b>	The product will have no adverse effect if in contact with surfaces prior to the application of paint or surface coatings.
<b>Compatible with rubber production processes</b>	Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanisation process.

## Skin conditioning cream

### STATUTORY REGULATIONS

This product is a cosmetic product regulated by and complying with Regulation EC No 1223/2009 (as amended) on Cosmetic Products.

### SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from [www.scjp.com/msds](http://www.scjp.com/msds).

### SHELF LIFE

This product has a shelf life of at least 30 months from the date of manufacture when stored unopened at room temperature. For shelf life after opening: see indication on packaging.

### QUALITY ASSURANCE

SC Johnson Professional skin care products are manufactured in facilities which follow cosmetic Good Manufacturing Practice (cGMP) requirements.

All raw materials used for production undergo a thorough quality control process before being used for manufacturing in our high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers.

### CERTIFICATIONS

#### ECARF Seal of Quality

This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. Cosmetics can receive the seal of quality for meeting the following criteria:

1. Quantitative risk assessment of the product ingredients with respect to their potential for skin sensitisation, taking into account their specified conditions of use and amount.
2. Medically supervised clinical trials by volunteers with atopic dermatitis.
3. Approved system of quality control management.

For more information go to <http://ecarf-siegel.org/en/about-seal>.

### PRODUCT SAFETY ASSURANCE

#### Skin Compatibility Test

Independent dermatological tests conducted to assess the skin compatibility of the product using voluntary test persons in occlusive, 48 consecutive hour application models, shows the product to be non-irritating in use.

#### Toxicological Approval

The product has been assessed by an independent toxicologist and has been declared to be safe for use on the hands, face and neck of adults aged 16 and above.

#### Skin Hypoallergenic Risk Assessment

The formulation has been assessed by an independent toxicologist to be formulated in such a way as to provide either minimal or no risk of provoking allergic skin response and thus meets the requirements for being described as 'Hypoallergenic' (Delphic Solutions Ltd, UK).

Allergy sufferers should always refer to the ingredient list before using the product.

### COMPATIBILITY TESTS

#### Glove Compatibility

In independent testing, the use of Swarfega® Restore in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.

#### Rubber Production Process Compatibility

In testing conducted by the Deutsches Institut für Kautschuktechnologie (DIK) in accordance with DIN EN ISO/IEC 17025, the use of Swarfega® Restore in rubber production process does not influence the cohesive strength of rubber.

#### Sanitiser Compatibility Test

The compatibility of Swarfega® Restore with alcohol-based hand sanitisers was tested using a modified EN13727 test protocol. Results show that Swarfega® Restore does not negatively affect the efficacy of alcohol based hand sanitisers against *Ps aeruginosa*, *E coli*, *S aureus* and *E hirae*.

### EFFICACY TESTS

#### Skin Hypoallergenic

The perfume-free and dye-free formulation did not demonstrate a potential for eliciting dermal irritation or sensitisation after conducting an independent 6 week Repeat Irritation Patch Test (HRIPT).

Allergy sufferers should always refer to the ingredient list before using the product.

#### Skin Hydration Test

The moisturising properties of Swarfega® Restore were assessed via application of the product twice daily at an interval of approx. 5 hours to the forearm skin of healthy volunteers over a 4 day test period. The starting values for the skin moisture were determined in the morning by means of the Corneometer®, before the first application, and then again on the morning of the subsequent day.

Results show that under repeated usage conditions, Swarfega® Restore provides the skin with consistent levels of increased hydration; over 1.5 times more than untreated skin. This demonstrates that the skin moisture is clearly improved by Swarfega® Restore when used regularly.

4 Day Skin Hydration Test
