## Sectors

## Features & Benefits

### Powerful Cleaning Efficiency

The 70/80L high-capacity water tanks, dual brush discs, and wider cleaning width help save time and deliver faster, more efficient floor cleaning.

### Longer-lasting Cleaning

The G26BT Battery Model features a self-driving system powered by two 12V 100Ah AGM maintenance-free batteries, providing up to 3.5 hours of continuous runtime.

### User-Friendly and Convenient Operation

The automatic brush load system allows for quick and effortless brush assembly or disassembly with the push of a button, making maintenance simple and hassle-free. Additionally, the connection plug features an anti-reverse design to prevent incorrect insertion, ensuring safer and more reliable operation.

The soft start and automatic emergency stop features are designed to ensure operator safety at all times.

The digital control system offers clear, intuitive operation, helping to extend the lifespan of both the battery and the motor

The large 70/80L water tank features a smooth interior, making it easy to clean and helping to prevent bacteria build-up.

Easy dismantling, smooth operation, and high efficiency make this machine highly convenient and effective.
