

G26<sup>RB</sup>

# Commercial ride-on floor scrubber dryer

For medium-sized indoor areas

WAREHOUSE / AIRPORT / HOSPITAL

Genjus®

The G26<sup>RB</sup> is designed as a compact ride-on floor scrubbing machine, for both daily cleaning and maintenance tasks in a variety of environments. It is especially effective in larger spaces where you may encounter smaller areas like corridors that are more challenging to clean.

The powerful G26<sup>RB</sup> ride-on machine provides faster and more efficient cleaning making G26<sup>RB</sup> a perfect solution for meeting your cleaning needs in both large and confined spaces.

## Features & Benefits

### Ride-on but Flexible

90L high-capacity solution tank, good for large space.  
Flexible control with steering wheel knob ball booster.

### Enjoy the Drive, Finish the Cleaning

The powerful drive motor delivers speeds of up to 5 km/h and handles climbing gradients of up to 12%. Equipped with two 12V/120Ah maintenance-free batteries, the G22RB offers up to 4.5 hours of continuous operation, ensuring durability and efficiency.

Airport

### Safety is the Priority

The pressure-sensitive seat prevents accidental activation by stopping the machine when not properly occupied. For enhanced safety, the machine automatically slows down during turns and when reversing, reducing the risk of collisions. It also features an active braking system with a braking torque of up to 6 Nm, ensuring precise and reliable stopping.

## Specifications

### G26<sup>RB</sup>

|                                       |                       |
|---------------------------------------|-----------------------|
| Cleaning Width                        | 700mm                 |
| Squeegee Width                        | 860mm                 |
| Working Efficiency                    | 3500m <sup>2</sup> /h |
| Brush Pressure                        | 40KG                  |
| Brush RPM                             | 180RPM                |
| Brush Motor                           | DC24/400*2V/W         |
| Vacuum Motor                          | DC24/390V/W           |
| Traction Motor                        | DC24/300V/W           |
| Forward Speed                         | 0-5Km/h               |
| Solution Tank                         | 90L                   |
| Recovery Tank                         | 100L                  |
| Max.Gradeability                      | 12%                   |
| Machine Dimension (Squeegee Excluded) | 1365*750*1190 L*W*H   |

Cleaning spaces *with ease*
