

G34<sup>RB</sup>

# Commercial ride-on floor scrubber dryer

For large outdoor and indoor areas

STADIUMS / SHOPPING CENTRES / AIRPORTS / HEALTHCARE

Genjus®

# G34<sup>RB</sup>

The G34<sup>RB</sup> is engineered for exceptional cleaning efficiency and superior performance. Featuring an auto-lifting brush, automatic deceleration, anti-rollover support, and optional water recycling or hypochlorous acid disinfection systems, it is an ideal choice for shopping malls, airports, hospitals, and stadiums.

## Sectors

Hospitals

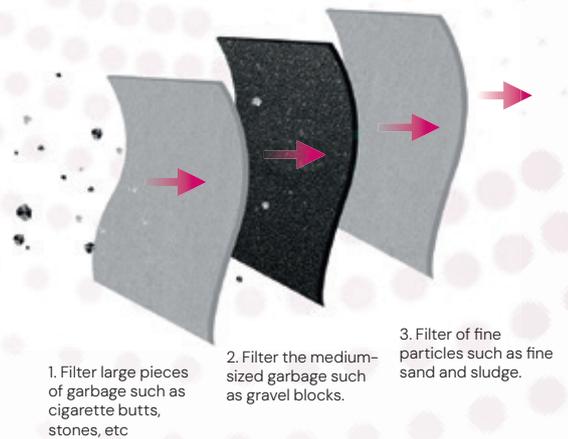

Industry

## Features & Benefits

1. 24V 200Ah batteries offering extended standby time and up to 5.5 hours of continuous use for high work efficiency.
2. Cleaning width of up to 860mm, reducing cleaning time and improving overall efficiency.
3. Exceptional endurance with large-capacity, maintenance-free Chilwee batteries, providing up to 5.5 hours of continuous operation.
4. The automatic deceleration system ensures maximum safety for the operator during turns.
5. Capable of handling ramps with a gradient of up to 15%, featuring an effective brake system with a torque of 8Nm for reliable stopping power.

## 3 Layer Filtration

Seat pressure interaction switch, stop machine once operator leaves.

Auto lifting brush, easier for maintenance.

Automatic deceleration design, to avoid risks when machine turns.

The impact-resistant bumper protects your machine in operation.

## Specifications

### G34<sup>RB</sup>

Cleaning width	860mm
Squeegee width	1100mm
Efficiency	5590m <sup>2</sup> /h
Brush pressure	50Kg
Brush speed	180rpm
Driving motor	24V/760W
Vacuum motor	24V/400W*2
Brush motor	24V/500W
Volume of solution tank	120L
Volume of recovery tank	130L
Battery	24V/200Ah
Runtime	6.5h
Unit dimension	1523*880*1240mm
Net weight machine	222Kg

Cleaning spaces *with ease*
