

BLAST

BEER PIPELINE CLEANER

- Non-tainting and odourless - no adverse effects on beer
- Cleans plastic and stainless steel
- Concentrated formula - economical in use

A beer pump and pipeline cleaner that ensures beer stays in top condition.

USES

A powerful, colourless and odourless blend of caustic soda and sequestrants designed to clean beer pumps and pipelines quickly and efficiently.

Cleans all plastic and stainless steel beer pumps, pipelines and tanks within the brewing industry.

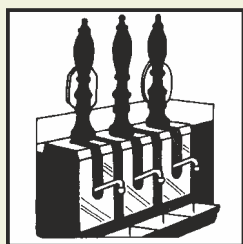

Ideal for use in the hospitality sector including breweries, pubs and bars.

DIRECTIONS

As BLAST contains a high level of Caustic Soda, always take extreme caution when handling it.

Dilute BLAST at a ratio of 1 part to 60 parts warm or cold water - using warm water will increase the cleaning action. Fill the system with the solution and leave to soak for 30 minutes. Rinse the system thoroughly with cold water.

Use Litmus paper to ensure that BLAST has been rinsed away thoroughly. If the Litmus paper turns blue, BLAST is still present in the system and more rinsing is required.
