

PURITI LAUNDRY CARE

ENZYME BOOST

LAUNDRY ENZYME
DESTAINER

- Acts On: Greasy/fatty Stains, Protein Stains, Milk, Blood, Egg Yolk, Grass, Cocoa, Starch Based Stains.

USES

Suitable for automatic dispensing systems. Dose with the Puriti Detergent within the main wash.

Enzyme Boost is stabilised and will need diluting with water to act efficiently. This will occur when used in a washing machine, and when mixed with water.

DIRECTIONS

MACHINE USE

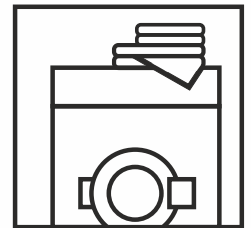

Add to the main wash with detergent at a rate of 4ml per Kg of wash load. Wash at 30 to 65°C.

PRE-SOAK

Add to warm water (30 to 40°C) and soak the fabric for 1 hour then wash the fabric normally.

NB. Only use on water washable fabrics. Do not use in conjunction with other laundry destainers or bleach based products. **Do NOT apply undiluted.**
